Question 1. (Single Select)

Which of the following best describes the primary role of Oracle Cloud EPM Data Integration?

- A: Automating report generation
- B: Managing metadata hierarchies
- C: Loading and transforming data into EPM applications
- D: Scheduling routine data backups

Correct Answer: C

Explanation:

Oracle Cloud EPM Data Integration primarily facilitates loading, transforming, and mapping data into various EPM applications.

Question 2. (Multi Select)

Which of the following is a capability provided by EPM Integration Agent? (Multiple Answers)

- A: Extracting data from on-premise ERP systems
- B: Transforming data in transit
- C: Automatically creating financial reports
- D: Supporting incremental data loads

Correct Answer: A, D

Explanation:

EPM Integration Agent allows for data extraction from on-premise ERP systems and supports incremental data loads, ensuring only new or updated data is loaded.

Question 3. (Single Select)

When configuring the EPM Integration Agent, which action must be taken to ensure it can access on- premise data?

- A: Configure API calls to access cloud services
- B: Create a custom dashboard for on-premise systems
- C: Assign a dedicated cloud administrator
- D: Set up a secure connection between the cloud and the on-premise data source

Correct Answer: D

Explanation:

A secure connection, typically via VPN or other secure network protocols, must be established between Oracle Cloud and the on-premise data source.

Question 4. (Single Select)

Which Oracle EPM data integration feature allows users to navigate to the original source data from within the EPM system?

- A: Smart Push
- B: Drill-through
- C: Data Export
- D: Performance Tuning

Correct Answer: B

Explanation:

Drill-through provides users with the ability to navigate from the aggregated data in Oracle EPM to the original transaction or source data.

Question 5. (Single Select)

What is a key benefit of using the EPM Integration Agent for data extraction?

- A: Automating data load rules configuration
- B: Direct integration with cloud-based applications
- C: Connecting to on-premises systems without requiring middleware
- D: Generating pre-configured financial reports

Correct Answer: C

Explanation:

EPM Integration Agent allows connection to on-premises systems for data extraction without requiring additional middleware, simplifying integration tasks.

This is a promotional banner for DirectCertify's 'Certification Exams Study Guides'. The background is dark with a large yellow arrow pointing right. On the left, there's a red 'PDF' icon and a 'FREE TRIAL' badge. A man in a light blue shirt is shown in the bottom left corner, looking thoughtful. The main text in yellow reads '* 100% MONEY BACK GUARANTEED CERTIFICATION EXAMS STUDY GUIDES'. Below this, a list of product features is shown with yellow asterisks: '100% Success in the Final Exam', '90 Days Free Updates', 'Latest Exam Q/A', '24/7 Customer Support', and 'Practice Exams'. At the bottom, it says '* Free Demo for Practice Test & PDF'. On the right side, there's a white box stating '50K Plus Satisfied Customers' and three circular images showing people in professional settings. At the very bottom right, logos for Visa, American Express, Discover, and Google Pay are displayed.
